FOREWORD

The *Final Budget Outcome 2002-03* has been prepared in a manner consistent with the *Charter of Budget Honesty Act 1998*. The Charter requires that, inter alia, the Government provide a final budget outcome report no later than three months after the end of the financial year. Consistent with these requirements, this report encompasses Australian Government general government sector fiscal outcomes for the 2002-03 financial year and is based on external reporting standards.

- **Part 1** provides the general government sector budget aggregates for 2002-03 together with an analysis of the 2002-03 final budget outcome. This includes summary analysis of revenue, expenses, net capital investment, cash flows and the balance sheet (net debt and net worth).
- **Part 2** presents the Australian Government financial statements for 2002-03 in accordance with the Australian Bureau of Statistics (ABS) Government Finance Statistics (GFS) framework. This data covers the general government sector as well as the Australian Government public corporations sector.
- **Part 3** presents the 2002-03 Australian Government general government sector financial statements in accordance with Australian Accounting Standards.
- **Part 4** provides details for 2002-03 on Federal Financial Relations, updated from that contained in the *2003-04 Budget Paper No. 3*.
- **Appendix A** contains details of budget concepts and reporting standards. **Appendix B** contains expenses data on a functional and sub-functional basis. Historical fiscal data are presented in **Appendix C**.

CONTENTS

Foreword.....	iii
Part 1: Australian Government Budget Outcome.....	1
Overview.....	1
Revenue	2
Expenses	4
Net capital investment	5
Cash flows	6
Net debt and net worth	8
Reporting standards	10
Budget financial statements	12
Part 2: Government Finance Statistics Statements	17
Loan Council Allocation	35
Part 3: AAS Financial Statements	37
Statistics, concepts and notes to the financial statements.....	41
Part 4: Federal Financial Relations	51

Table C8: Australian Government cash receipts, payments and cash surplus by institutional sector	94
Table C9: Australian Government accrual revenue, expenses and fiscal balance by institutional sector	95

Notes

- (a) The following definitions are used in this paper:
- ‘real’ means adjusted for the effect of inflation;
 - real growth in expenses is measured by the non-farm Gross Domestic Product deflator; and
 - one billion is equal to one thousand million.
- (b) Figures in tables and generally in the text have been rounded. Discrepancies in tables between totals and sums of components are due to rounding:
- estimates under \$100,000 are rounded to the nearest thousand;
 - estimates \$100,000 and over are generally rounded to the nearest tenth of a million;
 - estimates midway between rounding points are rounded up; and
 - the percentage changes in statistical tables are calculated using unrounded data.
- (c) For the budget balance, a negative sign indicates a deficit while no sign indicates a surplus.
- (d) The following notations are used:

NEC/nec	not elsewhere classified
AEST	Australian Eastern Standard Time
-	not available
..	not zero, but rounded to zero
na	not applicable (unless otherwise specified)
nfp	not for publication
\$m	\$ million
\$b	\$ billion

- (e) References to the 'States' or 'each State' include the Territories. The Australian Capital Territory and the Northern Territory are referred to as 'the Territories'. The following abbreviations are used for the names of the States, where appropriate:

NSW	New South Wales
VIC/Vic	Victoria
QLD/Qld	Queensland
WA	Western Australia
SA	South Australia
TAS/Tas	Tasmania
ACT	Australian Capital Territory
NT	Northern Territory
