## Section 1: Overview, variations and measures

### OVERVIEW

There has been no change to the overview included in the *2003-04 Portfolio Budget Statements* (page 143).

### ADDITIONAL ESTIMATES AND VARIATIONS TO OUTCOMES

The following variations contributed to a net increase in agency outputs of \$17.642 million for the Australian Securities and Investments Commission (ASIC).

#### Measures

#### Outcome 1 — A fair and efficient market characterised by integrity and transparency and supporting confident and informed participation of investors and consumers

#### Budget estimates — enhanced quality and timeliness

The Government will provide additional funding to agencies of \$88.5 million over five years (including \$0.1 million in 2007-08) to implement the Budget Estimates and Framework Review (BEFR) recommendations. This funding includes capital of \$7.4 million over four years.

In the 2003-04 Budget the Government made provision for \$78 million over five years to improve the accuracy, responsiveness and effectiveness of agencies' contribution to the Commonwealth's budget estimates and framework system and to assist agencies to drive improved financial management and reporting within their organisations. The Government has provided an extra \$10.5 million over five years to fund agencies to implement the BEFR recommendations.

**Other variations to appropriations**

The following variations contributed to a change in agency departmental outputs of \$17.526 million for ASIC. Explanations for these variations are detailed below.

**HIH Taskforce**

ASIC is seeking to reclassify funding appropriated in the 2003-04 Budget of \$17.5 million (\$28.2 million over two years) from administered to departmental. There has been no increase in the total amount of funding provided by the Government for this purpose.

**Increase in the price of outputs**

ASIC is seeking additional price of outputs funding of \$0.026 million following the Government decision to supplement ASIC for increases in Comcover premium rates for 2003-04.

## Section 2: Revisions to outcomes and outputs

### **OUTCOMES AND OUTPUT GROUPS**

The Australian Securities and Investments Commission (ASIC) has not made any changes to its outcome or outputs since the *2003-04 Portfolio Budget Statements*.

#### **Output cost attribution**

Each programme of activity (cost centre) in ASIC is linked to one of the four outputs. Accordingly, expenses against these programmes accrue against the outputs as they occur.

Where an expense relates to more than one output, it is allocated using a predetermined formula. For example, property lease overheads are allocated using staff numbers attributed to each programme.

### Revised performance information and level of achievement – 2003-04

ASIC has not made any changes to its performance information since the *2003-04 Portfolio Budget Statements*.

## **Section 3: Budgeted financial statements**

The budgeted agency and financial statements and related notes for the Australian Securities and Investments Commission (ASIC) are presented in this section. The financial statements should be read in conjunction with the accompanying notes. The Budget estimate and three forward years comprise the following statements.

### **AGENCY FINANCIAL STATEMENTS**

#### **Budgeted agency statement of financial performance**

This statement provides the expected financial results for ASIC by identifying full accrual expenses and revenues, which highlights whether the agency is operating at a sustainable level.

#### **Budgeted agency statement of financial position**

This statement shows the financial position of ASIC. It helps decision-makers to track the management of ASIC's assets and liabilities.

#### **Budgeted agency statement of cash flows**

Budgeted cash flows, as reflected in the statement of cash flows, provide important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

#### **Agency capital budget statement**

This statement shows all proposed capital expenditure funded through the Budget as appropriation or from internal sources.

#### **Agency non-financial assets — summary of movement**

This statement shows the movement in ASIC's non-financial assets during the budget year.

## **NOTE OF ADMINISTERED ACTIVITY**

The financial results from revenue and special appropriations administered by ASIC on behalf of the Commonwealth are shown in the following notes to the financial statements.

### **Note of budgeted administered financial performance**

This note identifies the main revenues and expenses administered on behalf of the Government. It also discloses administered revenues from government and transfers to the Official Public Account.

### **Note of budgeted administered financial position**

This note shows the assets and liabilities administered on behalf of the Government.

### **Note of budgeted administered cash flows**

Budgeted administered cash flows provide important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **Basis of accounting**

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention.

### **Budgeted agency financial statements and notes for the administered items**

Under the Commonwealth's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that agencies control (departmental transactions) are separately budgeted for and reported on from transactions agencies do not have control over (administered transactions). This ensures that agencies are only held fully accountable for the transactions over which they have control.

Departmental items are those assets, liabilities, revenues and expenses in relation to an agency or authority that are controlled by the agency. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the agency in providing its goods and services.

Administered items are revenues, expenses, assets and liabilities that are managed by an agency or authority on behalf of the Government according to set Government directions. Administered expenses and administered revenues include taxes, fees, fines and expenses that have been earmarked for a specific purpose by Government.

### **Appropriations in the accrual budgeting framework**

Under the Commonwealth's accrual budgeting framework, separate annual appropriations are provided for:

- departmental price of outputs appropriations representing the Government's purchase of outputs from agencies;
- departmental capital appropriations for investments by the Government for either additional equity or loans in agencies;
- administered expense appropriations for the estimated administered expenses relating to an existing outcome or a new outcome; and
- administered capital appropriations for increases in administered equity through funding non-expense administered payments.

### **Asset valuation**

From 1 July 2002, Commonwealth agencies and authorities are required to use either the cost basis or the fair value basis to value infrastructure, plant and equipment and leasehold improvements on a three yearly revaluation cycle. ASIC intends to adopt fair value as a basis for valuing its non-current assets.

### **Leases**

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased non-current assets, and operating leases under which the lessor effectively retains substantially all such risks and benefits.

Where a non-current asset is acquired by means of a finance lease, the asset is capitalised at the present value of minimum lease payments at the inception of the lease and a liability recognised for the same amount. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are charged to the statement of financial performance on a basis, which is representative of the pattern of benefits derived from the lease assets.

### **Depreciation and amortisation**

Depreciable, plant and equipment and leased information technology assets are written off to their estimated residual values over their estimated useful lives using in all cases the straight line method of depreciation. Leasehold improvements are amortised on a straight line basis over the lesser of the estimated life of the improvements or the unexpired period of the lease.

Depreciation/amortisation rates (useful lives) are reviewed at each balance date and necessary adjustments are recognised.
