ROYAL AUSTRALIAN MINT

Section 1: Overview

The Royal Australian Mint (the Mint) is a prescribed agency under the *Financial Management and Accountability Act 1997*. The Mint is responsible for producing circulating coin for Australia. The Mint also produces a range of numismatic products together with minted non-coin products including medallions and tokens. The Mint's collector coin and minted non-coin business is commercial, within Government-set parameters.

1.1 SUMMARY OF AGENCY CONTRIBUTIONS TO OUTCOMES

The products and services delivered by the Mint which contribute to the achievement of outcomes for the Mint are summarised in Table 1.1 and Figure 2 on page 315.

Table 1.1: Contribution to outcomes

Outcome	Description	Output groups
Outcome 1		
Satisfy the Reserve Bank of Australia's forecast for circulated coin	The single outcome consists of one output group, namely coin production, associated policy advice and visitors services.	Output Group 1.1 Royal Australian Mint

Section 2: Resources for 2007-08

2.1 APPROPRIATIONS AND OTHER RESOURCES

The total capital appropriation for the Royal Australian Mint (Mint) in the 2007-08 Budget is \$15.1 million. This appropriation represents the capital funding for refurbishment, the purchase of plant and equipment and internal security and upgrade of associated systems. The total resources (including capital appropriation) required for the Mint's operations in 2007-08 is estimated to be \$71.2 million.

Table 2.1 shows the total resources from all origins for 2007-08, including appropriations. The table summarises how resources will be applied by outcome, administered and departmental classification.

2.3 OTHER RESOURCES AVAILABLE TO BE USED

The following table provides details of resources obtained by the Mint for provision of goods or services. These resources are approved for use by the Mint and are also included in Table 2.1.

The use of a special account established under the *Financial Management and Accountability Act 1997 (FMA Act)* enables the Mint to fund its operations relating to the production of circulating coin from the revenue received from the Reserve Bank of Australia (RBA). As such, funds are received indirectly via the amounts retained from seigniorage for the production of circulating coin.

The Mint uses the revenue relating to the sales of numismatic coins and like products to fund its other operations.

2.5 SPECIAL APPROPRIATIONS

Table 2.5: Estimates of expenses from special appropriations

The Mint does not have any special appropriations.

2.6 MOVEMENTS IN SPECIAL ACCOUNTS

Special accounts provide a means to set aside and record amounts used for specified purposes. Table 2.6 shows the expected additions (credits) and reductions (debits) for each account used by the Mint. The Mint uses a special account for all of its operations.

Section 3: Outcomes

General government sector (GGS) agencies are required to plan, budget and report under an outcomes structure. GGS agencies produce outputs (departmental items) and also administer items on behalf of the Government (administered items).

This section summarises how the resources identified in Section 2 will be used to contribute to the outcome for The Royal Australian Mint (the Mint).

3.1 SUMMARY OF OUTCOMES AND CONTRIBUTION TO OUTCOMES

The relationship between activities of the Mint and its outcomes is summarised in Figure 2.

Figure 2: Contributions to outcomes

There has been no change to outcomes and outputs structure of the Mint from the *Portfolio Budget Statements 2006-07*.

Table 3.1 shows how the 2007-08 Budget resources translate to total resourcing for Outcome 1, including revenue from other sources.

The Budget measure for the Mint appears in Table 2.2. Detail of this measure is included in Budget Paper No. 2, *Budget Measures 2007-08*.

The Mint aims to contribute to satisfying the RBA's requirements for circulating coin by monitoring the forecasts and producing coin in response to the RBA's needs. The Mint also aims to promote public understanding about the cultural and historical significance of coins. The Mint also provides advice on coin related issues.

The Mint delivers a single output – ‘coin production, associated policy advice and visitor services’.

The following table summarises the performance information for administered items, individual outputs and output groups relating to the Mint.

Table 3.2: Performance information for Outcome 1

Performance indicators for individual outputs	
Output group 1: Royal Australian Mint	
Output 1.1.1 - Coin production, associated policy advice and visitors services	Advice meets Treasury Portfolio Minister's needs in administering their responsibilities and implementing Government decisions as they relate to coinage and the Royal Australian Mint operations. Produce circulating coin to meet Reserve Bank of Australia needs. Meet financial performance targets. Maintain the National Coin Collection and the Royal Australian Mint's Visitor Gallery and promote public understanding about the cultural and historical significance of coins. Price: \$56.1 million

3.2.5 Evaluations for Outcome 1

Evaluation and review activities planned by the Mint for 2007-08 include:

- the meeting of RBA forecasts are measured on a monthly basis;
- review of the cost of production and related pricing of products; and
- feedback will be sought from key stakeholders on a regular basis on the effectiveness of advice and visitor services.

Section 4: Other reporting requirements

4.1 PURCHASER-PROVIDER ARRANGEMENTS

The Royal Australian Mint (the Mint) does not have any purchaser-provider arrangements with any other Government agencies.

4.2 COST RECOVERY ARRANGEMENTS

The Mint does not presently have any cost recovery arrangements. All receipts from independent sources are excluded for the purposes of the *Commonwealth Cost Recovery Guidelines* as the Mint complies with competitive neutrality principles.

4.3 AUSTRALIAN GOVERNMENT INDIGENOUS EXPENDITURE

Table 4.1: Australian Government Indigenous Expenditure

The Mint does not have any specific indigenous expenditure.

Section 5: Budgeted financial statements

A brief analysis of the Royal Australian Mint's (the Mint) budgeted financial statements is provided below. The budgeted financial statements will form the basis of the financial statements that will appear in the 2007-08 Annual Report.

5.1 ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

In the income statement the Mint has budgeted for a profit of \$1.0 million in 2007-08. Income from the sales of numismatic coin and like product is expected to remain steady in the forward years.

The balance sheet provides a consistent picture between the budget and previous financial years. The net asset position is expected to increase from previous financial years due to the replacement of old plant and equipment, for which the Mint received capital appropriation over five years from 2003-04.

Budgeted financial statements

Departmental financial statements

The Mint has a sound financial position and currently has sufficient cash to fund ongoing provisions and payables, and asset replacements, as they fall due.

Budgeted departmental income statement

This statement provides a picture of the expected financial results for the Mint by identifying full accrual expenses and revenues, which indicates the sustainability of the Mint's finances.

Budgeted departmental balance sheet

This statement shows the financial position of the Mint. It helps decision-makers to track the management of assets and liabilities.

Budgeted departmental statement of cash flows

Budgeted cash flows, as reflected in the statement of cash flows, provide important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities

Departmental statement of changes in equity — summary of movement

Shows the budgeted movement in equity, from the operating result, changes in revaluations and injections of equity from capital appropriations.

The Mint Budget Statement: Budgeted financial statements

Departmental capital budget statement

Shows all planned departmental capital expenditure, whether funded through capital appropriations for additional equity, or funded from internal sources.

Departmental property, plant, equipment and intangibles — summary of movement

Shows budgeted acquisitions and disposals of non financial assets during the Budget year.

Schedule of administered activity

Schedule of budgeted income and expenses administered on behalf of government

This schedule identifies the main revenues and expenses administered on behalf of the Australian Government.

Schedule of budgeted administered cash flows

This schedule identifies the cash flows administered on behalf of the Australian Government.

5.3 NOTES TO THE FINANCIAL STATEMENTS

Departmental

Basis of accounting

The Mint's budgeted statements have been prepared on an accrual basis and in accordance with historical cost convention, except for certain assets which are at valuation.

Revenues and expenses are recognised in the operating statement when and only when the flow or consumption or loss of economic benefits has occurred and can be reliably measured.

Budgeted departmental income statement

Revenues

Revenue is derived from the sale of numismatic coin, the production of circulating coin and the sale of coin like products. The amount of revenue earned in any one year is dependent upon the demand for such products by the coin collecting market.

Expenses

Employees

This includes wages and salaries, superannuation, provision for annual leave and long service leave and workers compensation.

Depreciation and amortisation

Depreciable assets are written off over their estimated useful lives. Depreciation is calculated using the straight-line method.

Other

Other expenses include the cost of goods sold.

Budgeted departmental balance sheet

Non-financial assets

Inventory

Inventories held for resale are at the lower of cost and net realisable value. Work in progress and finished goods are brought to account to include direct costs and a proportion of direct labour and overhead. All precious metals are purchased and brought to account at cost and expensed as used.

Provisions and payables

Employees

The liability for employee entitlements includes provision for annual leave and long service leave. No provision has been made for sick leave, as all sick leave is non-vesting.

The non-current portion of the liability for long service leave is recognised and measured at the present value of the estimated future cash flows in respect of all employees.

Asset valuation

Australian Government agencies are required to value property, plant and equipment and other infrastructure assets using the fair value method of valuation.

Departmental capital budget statement

This shows proposed capital expenditure for the ongoing replacement programme of non-financial assets. This asset replacement programme has been funded by capital appropriation. In 2007-08 \$2.5 million will be provided for the replacement of plant and equipment, \$6.1 million for the refurbishment of the Mint and \$6.5 million for internal security and upgrade of associated systems.

Administered items

Seigniorage is collected by the Mint on behalf of the Australian Government. Seigniorage represents the difference between the face value of coinage sold to the Reserve Bank of Australia and its cost of production to the Mint. Seigniorage is treated as an administered item within the Mint's administered budget statements.
