FOREWORD

Budget Paper No. 2, *Budget Measures 2008-09* ensures that the Budget Papers provide comprehensive information on all Government decisions that involve changes to its revenue, expense and investing activities since the *Mid-Year Economic and Fiscal Outlook 2007-08*.

Budget Paper No. 2 comprises three parts:

- Part 1: Revenue Measures
- Part 2: Expense Measures
- Part 3: Capital Measures

Revenue measures are defined as those measures that affect taxation or non-taxation revenues (on a Government Finance Statistics basis).

Expense measures are defined as those measures that affect expenses (on a Government Finance Statistics basis).

Capital measures are defined as those measures that affect net capital investment, defined as the change in non-financial assets. Capital measures that fall outside of this definition, such as equity injections or loans used for purposes other than investment in non-financial assets, are shown as having a zero impact on the fiscal balance.

A summary of all measures introduced since the 2007-08 Budget is included in each part. Measures introduced since the *Mid-Year Economic and Fiscal Outlook 2007-08*, including measures in this Budget, are described in detail.

Notes

- (a) The following definitions are used in this Budget Paper:
- ‘real’ means adjusted for the effect of inflation;
 - real growth in expenses is measured by the non-farm Gross Domestic Product (GDP) deflator;
 - the budget year refers to 2008-09, while the forward years refer to 2009-10, 2010-11 and 2011-12; and
 - one billion is equal to one thousand million.
- (b) Figures in tables and generally in the text have been rounded. Discrepancies in tables between totals and sums of components are due to rounding.
- (c) For the budget balance, a negative sign indicates a deficit while no sign indicates a surplus.

(d) The following notations are used:

COAG	Council of Australian Governments
NEC/nec	not elsewhere classified
